

Dynamic of google street maps

If you put your address only looks dated, or if access to their offices is complicated, interesting will surely give your website a dynamic street Google Maps.

Although the most widely used is the one offered by Google, there are now more free options that integrate on its website a street with zoom, **and image placeholders satellite that will help your customers to reach you.**

To see a working example of this functionality and options see [página de mapas dinámicos de nuestra web de ejemplo](#) [1].
